

There's something special about a dental practice made up of a husband and wife team both of whom are totally dedicated to helping patients feel great about themselves. Dr. Bogdan Paunovic and his wife, Dr. Susan Paunovic, believe it's all about the smile – before, during and after treatment.

"We pride ourselves on providing the best treatment, as well as building strong, trusting relationships with our patients," says Dr. Bo. "We refer to it as 'advanced dentistry with a gentle touch.'"

Their full-service practice offers an extensive range of procedures in family and cosmetic dentistry. Areas of expertise include full-mouth reconstruction and smile makeovers utilizing whitening, porcelain veneers, crowns and implants.

As the parents of four children, Doctors Bo and Sue know how hectic schedules can get, so they offer convenient office hours. "We do everything we can to make this a great first visit for your children" says Dr. Sue.

Both Doctor's continue to stay on top of the latest breakthroughs
